

Theatro's Emergency App Suite

Theatro saves lives!

Bring your emergency procedures to life using the Theatro Intelligent Assistant to mobilize store teams and deliver critical information to improve responsiveness when every second is critical. Updating your emergency preparedness plan to include the Theatro Emergency App Suite safeguards your employees and customers when disaster strikes.

Theatro's Intelligent Assistant mobilizes and keeps everyone informed. Theatro communicates critical emergency-specific instruction to store management and associates via the Theatro Communicator while notifying the appropriate district/regional/headquarters leadership via the Theatro Manager App.

Theatro's Intelligent Assistant provides decision support. In the event of an emergency, accurate real-time information is critical. Theatro provides employee location information, exit locations, and emergency status directly to the ear of the appropriate employee/manager.

Emergency situations are serious and unexpected - don't be caught unprepared. Theatro intelligently connects employees to each other and to critical emergency preparedness protocols saving time during moments of crisis when every second counts.

Saves lives with
Theatro's Emergency App Suite

**Emergency preparedness can mean the
difference between loss and survival**

Evacuation

In the event of a life-threatening incident like a fire, gas leak, or bomb threat an immediate evacuation is necessary to protect the lives of customers and employees. Theatro's Intelligent Assistant uses your standard evacuation procedures, automatically mobilizing the right employees at the right time to get everyone out safely. Theatro provides decision support to empower store leadership to take appropriate actions when disaster strikes.

Medical Emergency

Store employees use the Theatro Intelligent Assistant to obtain critical information and notify store leadership and first aid certified staff in the event of a medical emergency. Through the power of intelligently connecting employees and providing emergency operations assistance, Theatro helps store teams keep control of the situation and alleviate anxiety.

Inclement Weather

Headquarters, regional leadership, and management can trigger inclement weather alerts with specific preparation instructions. Safeguard your employees and assets as early as possible by effectively mobilizing store teams.

Code Adam

Every 40 seconds a child goes missing somewhere in the United States. The Theatro Intelligent Assistant provides direction and critical information to store teams to effectively execute store processes to find missing children/parents in a situation where every second counts.

Chemical Spill

Store associates immediately access appropriate procedures in the event of a chemical spill. Keep customers safe and clean up fast with efficient response coordination.

Power Failure

Store leadership is able to immediately access power failure procedures to minimize impacts to store business and ensure a safe environment for employees and customers.
